01 — BRAND OVERVIEW

KONKRED builds AI tools that ship. Portfolio, consulting, marketplace
– all in one concrete place.

KONKRED is a personal AI engineering brand: apps I've built, tools I've open-sourced, clients I work with.
Four products, one system. No pitch decks. No vapor. Production-grade, documented, handed over.

Positioning: AI engineer / builder / consultant. Prompt auditing & certification, enterprise micro-tool suites, red teaming & AI security, automated documentation.

Personality: Clinical, architectural, concrete. Same cold forensic DNA as MUTE CUT, but building instead of documenting. Optimistic about tools, skeptical about hype.

Promise: "It works. Then we make it good."

VOICE

"Concrete tools for abstract problems." · "Ship or don't ship." · "No pitch decks. No vapor." · "Built when the SaaS options kept lying about throughput." · "It works. That's not the same as being good."

02 — LOGO — CUBE-K MARK V3

Architectural cube with a K excavated through the right face, revealing an interior concrete/circuit framework. Isometric 30°. The K is not drawn — it's cut. Concrete, not chrome.

PRIMARY MARK — FULL LOCKUP — V3

KONKRED_cubeK_v3.svg — Forensic rebuild. Crop marks top face L+R. Left-face tick. Interior concrete block (3-face). K-truss cross-brace. 3 floor rails. Signal circuit trace. 1400×1400 master.

MARK CONSTRUCTION — V3

SPEC	VALUE
Projection	Isometric 30°
Top face	#E8E9EC — crop marks L+R
Left face	#D7D9DD — diagonal tick
Right face	#C4C7CC — K excavation
Interior	Void #0B0F14 · wireframe #7a7f88
Concrete block	3-face isometric, bottom-right
Cross-brace	K-truss, arrow form
Signal trace	Amber #D98A2E, 2.2–2.8pt
Clear space	≥ 0.5× cube height
Min digital	48px cube height

05 — PRODUCT SUITE

Four tools. Concrete function, no marketing layer.

PROMPT CERTIFICATION

KONKRED Audit

Audit prompts. Value them. Certify them. Structured evaluation, quality scoring, compliance trail. What the prompt actually does, documented — with a certificate attached. For teams that need to prove their AI works before it ships.

[audit](#) · [valuation](#) · [certification](#) — [live](#) · [API](#) + [dashboard](#)

MICRO-TOOL SUITE

KONKRED Enterprise

A suite of numerous micro-tools built from massive enterprise-level prompts across different domains. One input, concrete output. No configuration theater. Built from a prompt library that has actually shipped in production environments.

[micro-tools](#) · [enterprise prompts](#) · [multi-domain](#) — [live](#)

AI SECURITY

KONKRED Redeye

Red teaming and AI security. Adversarial prompt testing, jailbreak surface mapping, guardrail validation. Find the break before someone else does. Full security report included — the way a coroner documents cause of death.

[red team](#) · [adversarial](#) · [guardrails](#) — [live](#)

DOCUMENTATION

KONKRED Arbitra

Build documentation. From code, from prompts, from systems that never had any. API references, runbooks, architecture notes — generated, verified, versioned. Documentation that matches reality, not the README from six months ago.

[docs](#) · [api refs](#) · [runbooks](#) — [live](#)
